ELEMENTARY VIRTUAL ACADEMY ATTENDANCE

Attendance will be taken retroactively in PowerSchool each week based on the pacing provided by NDCDE. If a distance learning student makes adequate weekly progress in their coursework (see below), they will be counted present. If not, they will be considered absent for the appropriate number of days.

<u>Example</u>:

Student is signed up for 7 classes. Student will be expected to complete NO LESS THAN one assignment per class per day. (Please note: This number does not guarantee the student will complete the course within the semester. This is the minimum requirement for attendance only - not course credit.) **Attendance is based on lesson completion.** (1 lesson per course, per day X 5 days = 35 lessons per week)

35 lesson = 1 week of attendance (1 lesson/day x 5 days x 7 courses)			
5 days	35 lesson	5 days present	0 days absent
4 days	28 lessons	4 days present	1 day absent (M)
3 days	21 lessons	3 days present	2 days absent (M, T)
2 days	14 lessons	2 days present	3 days absent (M, T, W)
1 day	7 lessons	1 day present	4 days absent (M, T, W, Th)
0 days	> 7 lessons	0 days present	5 days absent (M, T, W, Th, F)

*Typical 5 day week (Sunday to Saturday - 7 days is a week)
**Rubric would adjust for short weeks
