

New Administrator Profile

Lori Conmy, Madison Elementary Principal

Employee Since: 2011

1. Why did you initially want to get into the field of education?

I would have to thank my elementary school teachers for giving me an outstanding experience, as that is why I decided to become an educator. I have always loved helping others, and working with children is a passion of mine, so the field of education was a perfect fit. Over the past 17 years, I have truly enjoyed the variety of experiences teaching and leading students to success.

2. What did you do before accepting your most current position?

The first seven years of my career were in Oregon where I taught in both a self-contained middle school setting and as a sixth-grade teacher. I then moved back to the Fargo area and taught Special Education at Aurora Elementary School for four years and fourth and fifth grade at Longfellow Elementary School for four years. That then lead me down the path of administration, where I have been blessed to work as the Administrative Intern and most recently as the Dean of Students at Ed Clapp Elementary School.

3. What do you like to do outside of work?

In the summer, I love to head out on mini adventures with my family. These adventures usually consist of camping, hiking, heading to the lakes, or checking out new places. If we are not on an adventure, you can find us heading to the park, riding our bikes, or playing in the water. I also love to garden, go on walks, and read.

4. Tell us about your family.

My family consists of my husband, Bill, our daughters, and our King Charles Spaniel, Samson.

5. What about FPS makes you most proud?

I am always amazed by the passion that comes through when talking and working with staff members from Fargo Public Schools. The commitment to student learning and growth amazes me and makes me proud to be a part of such an amazing school district.
