

IMMUNIZATION UPDATE

This is a reminder that every child entering grade 7 is REQUIRED to receive a Tetanus/Diphtheria/Pertussis (Tdap) vaccine booster and Meningococcal vaccine. All students have thirty school days from the start of the school year to be compliant. If not compliant they could be excluded from school. To receive optimum disease coverage and ensure school requirements are met prior to entering grade 7, it is recommended your child receive these two vaccinations once they turn 11 years of age. All students in 7th and 8th grade should have one dose of Tdap and Meningococcal recorded on their immunization record before the start of the 2019 -2020 school year. Please bring a copy of the updated immunization record to the school.
